

USDA made this announcement this afternoon of details for the specialty crop element of the Farmer Bridge program, known as the Assistance for Specialty Crop Farmers (ASCF) which covers dry beans. From the announcement: *Eligible farmers should ensure their 2025 acreage reporting is factual and accurate by 5 p.m. ET on March 13, 2026. Commodity-specific payment rates will be released by the end of March. Crop insurance linkage will not be required for the ASCF Program. However, USDA strongly urges producers to take advantage of the new One Big Beautiful Bill Act (OBBBA) risk management tools to best protect against price risk and volatility in the future.*

USDA Announces Assistance for Specialty Crop Farmers Impacted by Unfair Market Disruptions

Specialty Crops Acreage Reporting Deadline for 2025 is March 13

PUBLISHED:

February 13, 2026

(Washington, D.C., February 13, 2026) – U.S. Secretary of Agriculture Brooke L. Rollins announced that the U.S. Department of Agriculture (USDA) is providing \$1 billion in Assistance for Specialty Crop Farmers (ASCF) Program assistance for specialty crops and sugar, commodities not covered through the previously announced Farmer Bridge Assistance (FBA) program. These one-time bridge payments will help address market disruptions, elevated input costs, persistent inflation, and market losses from foreign competitors engaging in unfair trade practices that impede

exports. Specialty crop producers have until March 13, 2026, to report 2025 acres to USDA's Farm Service Agency (FSA).

"President Trump has the backs of our farmers, and today we are building on our Farmer Bridge Assistance program with the Assistance for Specialty Crop Farmers (ASCF) Program. Our specialty crop producers continue to feel the negative effects of four years under the Biden Administration, suffering from record inflation, a depleted farm safety net, and delayed disaster assistance," **said Secretary Rollins**. "President Trump and the entire cabinet are working every day to fight bidenflation and lower prices for consumers. If our specialty crop producers are not economically able to continue their operations, American families will see a decrease in the food they rely on, wholesome and nutritious fruits and vegetables. Putting Farmers First is essential to the Make America Healthy Again movement and we are doing both at USDA by expanding market opportunities and improving the farm economy for all producers. Today's specialty crop announcement builds on our efforts to improve markets for real food into American schools, institutions, and family dinner tables."

The Assistance for Specialty Crop Farmers Program is authorized under the Commodity Credit Corporation Charter Act and will be administered by FSA.
