To Our Valued Customers:

It is now necessary for us to raise our finance charge from 1.0% per month to 1.5% per month on past due unpaid balances. This change will be effective on all applicable April 30th, 2017 statements. We have made this change because the interest rate we are paying at our bank has increased.

Additionally, all of the companies that supply us with fertilizers, chemicals, and/or seeds are now charging 1.5% to 2.0% interest.

Thanks for your continued support.

Sincerely,

Roger
